

## 2024 MHS SGT TEACHER CANDIDATE

### **Jessica Vaughn**

I am a proud Marietta High School graduate and have served as a Marietta mathematics teacher for the last 21 years. I earned degrees from University of Georgia and Kennesaw State University in both mathematics education and instructional technology. As a Marietta alumna, employee, and soon to be MHS parent, I want to support Marietta High School's continued progress by serving on the School Governance Team. I am aware of our past and have strong hopes for our future. I intend to support forward progress that is for all students, ensuring our students leave MHS prepared for success in whatever endeavors they choose to pursue. I truly value what Marietta has to offer and hope that it continues for future generations. I would be happy to be a part of the team that fosters this growth and the continuation of the Marietta legacy.
