*Grade 5 Social Studies*

Theme	<i>Unit 1 Themes in Fifth Grade Social Studies</i>	Unit duration (Days)	<i>5-10 Days</i>
-------	--	----------------------	------------------

**GA DoE Standards**

**Standards/Themes:**

**Beliefs and Ideals:** The student will understand that people’s ideas and feelings influence their decisions.

**Location:** The student will understand that where people live matters

**Individuals, Groups, and Institutions:** The student will understand that what people, groups, and institutions say and do can help or harm others whether they mean to or not.

**Production, Distribution, and Consumption:** The student will understand the ways people make, get, and use goods and services may be different from how people in other places make, get, and use goods and services.

**Scarcity:** The student will understand that because people cannot have everything they want, they have to make choices.

**Technology Innovation:** The student will understand that new technology has many types of different consequences, depending on how people use that technology.

**Information Processing Skills:**

3. identify issues and/or problems and alternative solutions

11. draw conclusions and make generalizations

9. construct charts and tables

**Essential Questions**

**Factual—**

What beliefs or ideals are important to you?  
 What impacts do movement and migration have on a place?  
 What are the three economic questions?  
 What are goods and services?  
 What are examples of scarce resources?  
 What is technology?

**Inferential—**

How does our school's belief statement affect the decisions teachers and students make?  
 How do my own beliefs influence the decisions I make?  
 How do we resolve conflict within our school and classroom vs. at home?  
 How do the actions of individuals, groups, and/or institutions affect myself?  
 How does location affect society's economy, culture, and development?  
 Why do people move to new places?  
 How do people change when they move to a new place?  
 How do societies decide what goods and services to produce, distribute, and consume?  
 How does scarcity affect our everyday lives?  
 What are the positive and negative consequences of technology?

**Critical Thinking-**

How do the beliefs and ideals of a society influence the social, political, and economic decisions of that society?  
 Why does conflict often lead to change?  
 How do the actions of individuals, groups, and/or institutions affect others in society?  
 How are societies affected by the movement or migration of people and ideas?  
 Why are goods and services important to a community?  
 Why can't we all have everything we want?  
 How does the technology in our classroom influence the way we learn?
