Discuss this statement: It is impossible to know who we are without knowledge of the past. 2. Discuss this statement: It is unfair to judge the people and actions of the past by the standards of today. 3. Discuss this statement: Imagination is more important in history than in any other area of knowledge. 			

INQUIRY: establishing the purpose of the unit

Transfer goals

List here one to three big, overarching, long-term goals for this unit. Transfer goals are the major goals that ask students to “transfer” or apply their knowledge, skills, and concepts at the end of the unit under new/different circumstances, and on their own without scaffolding from the teacher.

Students will be able to apply their learning in this unit to constructing a balanced response to a Knowledge Question that is based on one of three aspects of Knowledge and History.

ACTION: teaching and learning through inquiry

Content/skills/concepts—essential understandings	Learning process <i>Highlight any pedagogical approaches used during the unit. Aim for a variety of approaches to help facilitate learning.</i>
<p><u>Students will know the following content:</u></p> <p>A basic definition of history and the challenges in finding certainty in historical study.</p> <p>The role of bias in historical interpretation, as well as how multiperspectivity can help to filter the bias.</p> <p>The difference between historical research and historiography, and how historiography helps to filter bias.</p>	<p>Learning experiences and strategies/planning for self-supporting learning:</p> <ul style="list-style-type: none"> • Lecture • Socratic seminar Small group/pair work

The ethical issues of revisionist history, as well as the personal and shared factors that determine what is prioritized in historical instruction.

Students will develop the following skills:

Students will be able to examine historical events critically, identifying bias and limitations.

Students will be able to discern aspects of history that are factual in comparison to those that are interpretative.

Students will be able to discern the ways in which historical knowledge is prioritized based on both personal and shared influences.

Students will grasp the following concepts:

Historical knowledge is based on facts and truth, but is also influenced by bias and personal/shared priorities.

Our historical knowledge establishes our shared context of the world.

There are multiple perspectives that contribute to a full understanding of historical events and people and time periods.

- Individual presentations
- Group presentations
- Student lecture/leading
- Interdisciplinary learning

Details:

SCOPE

- What is history? What are its parameters?
- Paired activity: what do you think should count as history and what should not? (make a T-chart)
- Evaluate the definition provided. What are the limitations to what is considered historical knowledge?
- Discuss as a class what, then, should be placed in
- The realm of “history”--*there is no need to come to a definitive answer.*
- What creates challenges in gaining certainty about history?
- Video: The Problem of History
- <https://www.youtube.com/watch?v=6-PEVe7mHl0>

- Review of ethical theories + paired evaluation of questionable research (short presentation)

Discussion: Is certainty about the past more difficult to attain than certainty about the present or the future? (students will discuss as pairs or groups, then return to whole class to share their ideas)

PERSPECTIVE

- Discuss Homework to Segue to Perspective:
 - It could be argued that certainty is based on objective knowledge.
 - Results in the need to determine which aspects of history are objective, and which are subjective.
- Paired activity: shared and personal knowledge--factors that might influence the perspective of an historian.
- So what parts of history are objective?
- Reading: Understanding the Role of Bias and Sources
 - After completing the reading, students will discuss with their partner how facts in history are different from interpretations. Students will prepare to share their conclusions with the whole class.

- Video: History on Trial - Deborah Lipstadt and the fight for historical truth <https://www.youtube.com/watch?v=A5PREFWXTgl&t=151s>

- The idea that all history is relative just doesn't hold, but perspective does play an important role in how we view events and people from the past.
 - Activity: Point of View vs. Multiperspectivity
 - Discuss the difference between Point of View and Multiperspectivity
 - Students will pair up and evaluate a set of documents using both approaches, and will consider what kinds of questions a Multiperspectivity approach presents that a Point of View approach does not.

METHODS AND TOOLS

- In order to deal with issues that result from perspective and/or bias, historians utilize historiography techniques.
- Historical Research vs. Historiography
